About Ginko Systems LLC

Ginko Systems provide end-to-end support to deliver our clients world-class programs. Our offerings include:

- Kiosk Design & Development
- Web Management and Network consulting
- Program Management and Consulting Services
- Scaleable Manufacturing using ISO 9000 Certified Partner
- Nationwide Services Organization
- Help Desk Services & Remote Monitoring

Ginko System is internationally recognized in design, development, manufacturing, and support groups specializing in interactive information and transaction devices (kiosks), web-enabled products, leading edge networked devices, and related e-commerce programs. We proudly serve the financial, retail, hospitality, transportation, government, telecommunications, entertainment, and general merchandising sectors.

We have an internationally recognized reputation for the design of self-service, interactive products. This reputation, combined with a proven history of manufacture of complex electro-mechanical devices, clearly distinguishes our company from our competitors. Our staff includes industry-recognized experts in the field of safety, product compliance and accessibility.

Ginko System is experienced in hardware and software integration of various operating systems, network applications, remote management and e-commerce applications (ATM, secure transactions, streaming video web-casting, data-mining, digital video & music delivery, photo processing, etc.).
